Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and the major fund information of Rossmoor Community Services District (the District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and the major fund information of the District, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States and the *State Controller's Minimum Audit Requirements for California Special Districts*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Rossmoor Community Services District
Management's Discussion and Analysis
For the Year Ended June 30, 2023**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**Rossmoor Community Services District
Management's Discussion and Analysis
For the Year Ended June 30, 2023**

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Rossmoor Community Services District (the District) provides an introduction to the financial statements of the District for the fiscal year ended June 30, 2023. We encourage readers to consider the information presented here in conjunction with the basic financial statements and related notes, which follow this section.

Financial Highlights

- The District's net position increased 1.0% or \$55,882 to \$5,652,761 in 2023 as a result of this year's operations.
- During the year, the District's property tax revenues increased by 8.2% or \$94,200 in 2023.
- Total revenues from all sources decreased by 4.1% or \$86,560 to \$2,013,935 in 2023 primarily due to the decrease in operating grants (decreased \$118,578).
- Total expenses decreased by 2.1% or \$41,191 to \$1,958,053 in 2023.

Using This Financial Report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Activities. This statement measures the success of the District's operations over the past year and can be used to determine the District's profitability and credit worthiness.

Government-Wide Financial Statements

Statement of Net Position and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Activities report information about the District in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's *net position* and changes in them. Think of the District's net position - the difference between assets and liabilities - as one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. You will need to consider other nonfinancial factors; however, such as changes in the District's property tax base to assess the *overall health* of the District.

Governmental Funds Financial Statements

Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets of the District exceeded liabilities by \$5,652,761 as of June 30, 2023.

A portion of the District's net position, 70.37% or \$3,977,702 as of June 30, 2023, reflects its investment in capital assets (net of accumulated depreciation), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to operate the District; consequently, these assets are *not* available for future spending. At the end of fiscal year 2023, the District showed a positive balance in its unrestricted net position of \$1,675,059 that may be utilized in future years.

	<u>2023</u>	<u>2022</u>	<u>% Change</u>	<u>\$ Change</u>

Net position, ending	<u>\$ 5,652,761</u>	<u>\$ 5,596,879</u>		

The statement of activities shows how the government's net position changed during the fiscal year. In the case of the District, net position increased by \$55,882 for the fiscal year ended June 30, 2023.

Governmental Funds Financial Analysis

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, the *unassigned fund balance* may serve as a useful measure of the government's net resources for spending at the end of the fiscal year.

As of June 30, 2023, the District's General Fund reported a fund balance of \$1,709,442. This amount is constituted by the District's *unassigned* portion of \$1,709,442.

Capital Asset Administration

Changes in capital assets for fiscal year 2023 were as follows:

	<u>2023</u>	<u>2022</u>	<u>% Change</u>	<u>\$ Change</u>
Capital assets	\$ 7,482,618	\$ 7,482,618	0.00%	\$ -

Total capital assets, net	<u>\$ 3,977,702</u>	<u>\$ 4,140,651</u>		

At the end of fiscal year 2023, the District's investment in capital assets amounted to \$3,977,702 (net of accumulated depreciation). The decrease in capital assets is primarily comprised of the annual depreciation. The District's investment in capital assets is more fully analyzed in Note 4 to the basic financial statements.

Long-term Liabilities Administration

Changes in long-term liabilities for fiscal year 2023 were as follows:

	<u>2023</u>	<u>2022</u>	<u>% Change</u>	<u>\$ Change</u>
Compensated absences	\$ 34,383	\$ 36,283	5.24%	\$ (1,900)

Total long-term liabilities	<u>\$ 7,908</u>	<u>\$ 8,345</u>		

At the end of fiscal year 2023, the District had \$34,383 in compensated absences of which \$7,908 is designated as long-term. The District's long-term liabilities is more fully analyzed in Note 5 to the basic financial statements.

Conditions Affecting Current Financial Position

Management is unaware of any conditions, which could have a significant impact on the District's current financial position, net position or operating results in terms of past, present and future.

Requests for Information

This financial report is designed to provide the District's funding sources, customers, stakeholders and other interested parties with an overview of the District's financial operations and financial condition. Balance of Governmental Fund to the Government-Wide Statement of Activities
For the Year Ended June 30, 2023**

Net change in fund balance - total governmental funds \$ 291,931

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense or are allocated to the appropriate functional expense when the cost is below the capitalization threshold. This is the amount by which depreciation expense (\$162,949) exceeded capitalized capital outlay (\$-0-) in the current period. (162,949)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Decrease in compensated absences 1,900

Certain revenues are recorded as unavailable revenue in the governmental funds because they do not meet the revenue recognition criteria of availability. However, they are included as revenue in the Governmental-Wide Statement of Activities. (75,000)

Rossmoor Community Services District

Notes to Basic Financial Statements For the Year Ended June 30, 2023

Note 1 – Summary of Significant Accounting Policies

A. Reporting Entity

On November 4, 1986, the territory of the unincorporated Rossmoor Community approved the order adopted on June 25, 1986, by the Board of Supervisors of the County of Orange ordering a reorganization resulting in the formation of the Rossmoor Community Services District (the District). The District was formed to acquire, provide and maintain public recreation facilities and services, street lighting, and, subject to the consent of the County of Orange, installation and maintenance of median landscaping, aesthetic trimming of parkway trees, and street sweeping.

Upon formation on January 1, 1987, the District assumed responsibility for the various services formerly provided by Community Service Area Number 21 and assumed all assets and liabilities, including real property, from Community Service Area Number 21.

The District is governed by a five member Board of Directors elected by the registered voters within the District boundaries.

B. Basis of Presentation

Financial statement presentation follows the recommendations promulgated by the Governmental Accounting Standards Board (“GASB”) commonly referred to as accounting principles generally accepted in the United States of America (“GAAP”). GASB is the accepted standards-setting body for establishing governmental accounting and financial reporting standards.

C. Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements include a statement of net position and a statement of activities. These statements report information of all nonfiduciary activities of the primary government.

The government-wide financial statements are reported using the “economic resources” measurement focus and the accrual basis of accounting. Accordingly, all of the District’s assets, liabilities, including capital assets and long-term liabilities, are included in the accompany statement of net position. The statement of activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned (i.e. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.). Expenses are recognized in the period when the liability is incurred, regardless of the timing of the related cash flows.

Rossmoor Community Services District

Notes to Basic Financial Statements For the Year Ended June 30, 2023

Note 1 – Summary of Significant Accounting Policies (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Governmental Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances. An accompanying schedule is presented to reconcile and explain the differences in Fund Balance as presented in these statements to the Net Position presented in the Government-wide Financial Statements. The District presented all funds as major funds.

Governmental fund financial statements are reported using the “current financial resources” measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Property taxes, special assessments, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental fund:

The **General Fund** is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. The general operating expenses are paid from this fund.

Rossmoor Community Services District

Notes to Basic Financial Statements For the Year Ended June 30, 2023

Note 1 – Summary of Significant Accounting Policies (Continued)

D. Property Taxes

Property taxes and special assessments associated with the current fiscal year are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal year. Property taxes attach as an enforceable lien on property. Secured and unsecured property taxes are levied on July 1st. The unsecured and secured property tax lien date is January 1st. Unsecured property taxes become delinquent on August 31st. Secured property taxes are payable in two installments, on November 1st and February 1st of each year, become delinquent on December 10th and April 10th, respectively. The County of Orange bills and collects the property taxes and remits them to the District according to a payment schedule established by the County. Property tax revenues are recognized when received in cash except at year-end when they are accrued pursuant to the modified accrual basis of accounting. The County is permitted by State law to levy property taxes at 1% of full market value (at the time of purchase) and can increase property assessed value no more than 2% per year.

E. Cash, Cash Equivalents, and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The District is a voluntary participant in an investment pool managed by the State of California titled Local Agency Investment Fund (LAIF) which has invested a portion of the pooled funds in Structured Notes and Assets-Backed Securities. LAIF's investments are subject to credit risk with full faith and credit of the State of California collateralizing these investments. In addition, these Structured Notes and Asset-Backed Securities are subject to market risk as to changes in interest rates.

Certain disclosures requirements for deposits and investment risks were made in the following area:

- Interest rate risk
- Credit risk
 - Overall

Note 1 – Summary of Significant Accounting Policies (Continued)

G. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are valued at the acquisition value of the assets on the date on which they were contributed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The District utilizes a capitalization threshold of \$5,000 and an estimated useful life in excess of two years.

Depreciation is recorded on a straight-line basis over the following estimated useful lives:

Buildings and structures	7 – 40 years
Computer equipment	3 – 7 years
Motorized vehicles	5 – 10 years

H. Long-term liabilities

In the government-wide financial statements, long-term liabilities are reported as liabilities in the applicable governmental activities statement of net position. Issuance costs are expensed when incurred.

I. Compensated Absences

Full-time District employees earn twelve sick leave days per year and ten to twenty vacation days per year depending on years of service. Part-time employees earn sick and vacation days at a pro-rated amount. Vacation days can only be used after one year of employment. Upon termination, the District is obligated to compensate employees for 100% of the accrued vacation time, and up to 80 hours of unused sick leave. Compensated absences are recorded in the long-term liabilities in the statement of net position.

J. Net Position

In government-wide financial statements, net position is classified in the following categories:

Investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation

Restricted – This component of net position consists of restricted assets reduced by liabilities related to those assets

Unrestricted – This component of net position is the amount of the assets, liabilities that are not included in the determination of investment in capital assets or the restricted component of net position

K. Fund Balance

Nonspendable – amounts that are not in a spendable form (such as prepaids and deposits) or are required to be maintained intact.

Restricted – amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government), through constitutional provisions or by enabling legislation.

Committed – amounts constrained to specific purposes by a government itself, using the highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Unassigned – amounts that are for any purpose; positive amounts are reported only in a general fund.

L. Spending Policy

For government-wide financial statements, when an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy is to apply restricted net position first.

For governmental fund financial statements, when expenditures are incurred for purposes where only unrestricted fund balances are available, the District's policy is to apply the unrestricted resources in the following order: committed, assigned, and unassigned.

M. Revenues

Property taxes and special assessments are collected by the County of Orange on behalf of the District and remitted to the District at various times during the year. Reimbursements from the State and the County are presented as intergovernmental revenues. Charges for services revenues represent fees collected for the use of District facilities. Investment income is derived from interest earnings and fair market value adjustments of the District's financial assets that are maintained in various investment types. Revenues not classified in one of the categories above are presented as other revenues.

Intergovernmental revenue for the year ended June 30, 2023 consists of County street sweeping reimbursements of \$78,456 and the Prop 68 grant of \$79,766. These intergovernmental revenues are presented as program revenues under the public services and general government functions/programs in the statement of activities.

N. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 – Stewardship, Compliance and Accountability

A. Budgetary Data

Budgets for the General Fund and the Capital Projects Fund are prepared, approved and adopted in accordance with Section 61110 of the government code. Budgetary control is maintained at the total expenditure level of each fund. Unexpended and unencumbered appropriations of the governmental funds automatically lapse at the end of the fiscal year for noncapital projects. Any deficiency of budgeted revenues compared to budgeted expenditures is financed from beginning unrestricted fund balance. During the fiscal year, several nominal supplementary appropriations were necessary.

Note 3 – Cash and Investments

Cash and investments as of June 30, 2023 consist of the following.

Cash on hand	\$	400
Demand deposits		132,872
Local Agency Investment Fund		<u>1,548,154</u>
Total cash and investments	\$	<u><u>1,681,426</u></u>

Investments Authorized by the California Government Code and the District's Investment Policy

The following table identifies the investment types that are authorized by the District's investment policy. The table also identifies certain provisions of the District's investment policy that address interest rate risk, credit risk and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

Local Agency Investment Fund

The District is a participant in LAIF which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The District's investments in LAIF at June 30, 2023 included a portion of pool funds invested in Structure Notes and Asset-Backed Securities:

Structured Notes are debt securities (other than asset-backed securities) whose cash-flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

Asset-Backed Securities, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

Note 3 – Cash and Investments (Continued)

Local Agency Investment Fund (Continued)

As of June 30, 2023, the District had \$1,548,154 invested in LAIF, which had invested 1.46% of the pool investment funds in Structured Notes and Asset-Back Securities. LAIF determines market value on its investment portfolio based on market quotations for those securities where market quotations are readily available and based on amortized cost or best estimate for those securities where market value is not readily available. The District's investment in LAIF is reported at amortized cost at June 30, 2023. All investments with LAIF are secured by the full faith and credit of the State of California. Separate LAIF financial statements are available from the California State Treasurer's Office on the Internet at <http://www.treasurer.ca.gov>.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter-term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

<u>Investment Type</u>	<u>Total</u>	<u>12 months or less</u>	<u>12 months or more</u>
Local Agency Investment Fund	\$ 1,548,154	\$ 1,548,154	\$ -

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the District's investment policy or debt agreements, and the actual rating as of year-end for each investment type.

<u>Investment Type</u>	<u>Total</u>	<u>Minimum Legal Rating</u>	<u>Rating as of Year End</u>
Local Agency Investment Fund	\$ 1,548,154	N/A	Not rated

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits. The California Government Code requires that a financial institution secure deposit made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

The District's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the District's name. California law also allows institutions to secure the District deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total cash deposits. The District may waive collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation ("FDIC"). The District did not waive the collateralization requirements.

Fair Value of Investments

GAAP defines fair value, establishes a framework for measuring fair value and establishes disclosures about fair value measurement. Investments, unless otherwise specified, recorded at fair value in the statement of net position/balance sheet, are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Level of inputs are as follows:

- Level 1 – Inputs are unadjusted, quoted prices for identical assets and liabilities in active markets at the measurement date
- Level 2 – Inputs, other than quoted prices included in Level 1, that are observable for the asset or liability through corroboration with market data at the measurement date.
- Level 3 – Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the assets or liability at the measurement date.

Investments in the Local District Investment Fund (LAIF) are not subject to classification in the fair value hierarchy.

Note 6 – Risk Management (Continued)

Adequacy of Protection

All claims are investigated, valued, reserved, defended and/or settled in accordance with generally accepted insurance industry practices. There are no existing claims known to the District which would exceed its applicable coverage. For the past three years, no claim has exceeded coverage limits for any of the programs indicated above. Contributions made for pooled self-insurance programs include amounts for claims which may have been incurred but not reported. Management believes the coverage as stated above is adequate and reasonable for the District.

Note 7 – Commitment and Contingencies

Grants and Contracts

The District has grants and contracts with government agencies which are subject to audit. No provision has been made for any liabilities that may arise from such audits since the amounts, if any, cannot be determined. Management believes that any liability which may result from these audits would not be material.

Claims and Contingencies

The District is subject to claims and contingencies related to lawsuits and other matters arising out of the normal course of business. Management believes the ultimate liabilities associated with such claims and contingencies, if any, is not likely to have material adverse effect on the financial position or results of the District.
